

# Volga International: Transforming Water Treatment Standards

Volga International proudly received the prestigious 'Arabia Best of Best Award 2023' in the Best Water Treatment Company category, a testament to their unwavering commitment to setting industry benchmarks.

Under the astute leadership of Managing Director, Mr. Shalu K Shaji, Volga International has become a revered distributor of the acclaimed Fluux Microfilter for the food service industry. With a clientele exceeding 200 premium partners and serving over 500 restaurants across the GCC region, their reputation for excellence remains unparalleled.

## Operational through three specialized divisions:

1. Food Service Division: Pioneering cutting-edge filtration technologies By Microfilter Fluux tailored for the food industry, ensuring uncompromised safety and quality standards.
2. Commercial Division: Addressing diverse industry needs, Volga International delivers superior water treatment solutions across various sectors like Commercial food manufactures, factories, hospitals etc.
3. Residential Filters: Venturing into residential markets, Volga International provides households with advanced filtration systems, ensuring safe drinking water for families.

Volga International's success hinges on their commitment to quality, prompt service, and a customer-centric approach, earning the trust and loyalty of their clients.
